## P-Series Defoamers

### Defoamers for Floor Coatings & High Viscosity Systems

DISPARLON P-465, P-466, and P-467 are silicone-free defoamers for use in roller and squeegee applied floor coatings. The P-Series was specifically designed for modern high solids and solvent-free flooring formulations including epoxy, polyurethane, and polyaspartics. These formulations are typically applied as thick films with high viscosity making defoaming difficult.
